sent out into the world'.*

Summer 2025

VM Art is an independent fashion brand founded by Italian designer Vincenzo Mennillo.

From the streets of **Shanghai** to the shores of **Portugal**, it began as a personal exploration mixing art, streetwear and protests.

Story

VM Art started with a journey in 2016, inspired by the creative pulse of Shanghai and a growing interest in eco-materials, Vincenzo launched a collection that merged contemporary streetwear with authentic style.

The brand evolved between Italy, Germany, and Portugal, always rooted in craftsmanship and independence.

Vision & Philosophy

VM Art doesn't follow trends it transforms them.

Wearable art that dares to provoke, blending urban style with responsibility.

Every piece is a manifesto: ironic sometimes surreal. The graphics don't follow trends...

They follow ideas. Each one is a fragment of thought oscillating between pop art, comics, and conceptual.
